DE PADOVA | PIERO LISSONI | ALBERESE

Harmonious, linear and flexible: Alberese is a set of modular sofas designed by Piero Lissoni for a contemporary, individual and welcoming living space devoted to Made in Italy's superior design. A collection of upholstered sofas with sloping armrests on which to unwind, read and spend time together. All the system's components feature a deep seating – single elements, the modern corner sofa, as well as chaise longues and designer ottomans – creating solutions that are always different, where the big and small stories of everyday life unfold.

ACTIU | RAMÓN ESTEVE | MEETIA

Meetia is a collection promoting well-being and comfort, ideal for contract, corporate, public, and private environments. Actiu launched the new collection of armchairs and sofas, Meetia, designed in collaboration with Ramón Esteve. With carefully crafted upholstery and a perimeter steel structure that lends it a unique character, Meetia uses sustainable materials and optimizes production processes to reduce its ecological impact.

DE SEDE | YONOH STUDIO | DS-909 FLOW

The DS-909 Flow is the new sculpture from Swiss craftsmanship masters, perfectly embodying the concept of flexibility. Reinventing spaces frequently is de Sede's goal with DS-909 Flow, created in collaboration with the team from Yonoh Studio. The modular elements can be combined in various ways to create new formations according to one's needs. The backrests are positionable, providing support and structure while remaining mobile.
